

MINHAZ KHAN

Skilled at critically evaluating projects and processes, applying technical IT expertise & data analysis into my evaluations. I've optimized processes, steered teams through challenging priorities, and untangled complex data streams into actual improvements. I find real satisfaction in mapping out how a team or system functions, then figuring out where it can serve people better. That instinct has shown up everywhere in my career and personal life, and it's what I want to keep building a career around.

SKILLS

➤ **Data & BI Tools:** Power BI, Tableau, R, SPSS, SQL, Python, Excel, relational database design, data validation, data integrity

➤ **Analytics & Statistics:** Regression analysis, correlation analysis, statistical validation

➤ **Productivity & Collaboration:** Trello, JIRA, Teams, surveys, data collection, literature Review

EDUCATION

University of California, Riverside

BS Neuroscience, 2009

CERTIFICATIONS

CompTIA, Data+ Certification, 2025

EXPERIENCE

Senior Biostatistician, Beckman Coulter Diagnostics

April 2016 – April 2025

- Designed and maintained validated statistical workflows and relational databases supporting FDA-regulated analyses, ensuring audit-ready documentation, data, and statistical trending for multiple product lines.
- Automated recurring statistical reports and data pipelines using SQL, R, and Excel, reducing manual processing time by over ~60% and improving turnaround time for internal stakeholders.
- Oversaw and tracked to completion bi-monthly projects with leadership owning Trello boards, Teams project channels, and working with IT JIRA tickets, across multiple departments and product lines.
- Collaborated with leadership across departments to design and run surveys and time-studies as needed (associate feedback, data entry, internal customers.)
- Introduced the use of large language models (LLMs) to fast-track the summarization, grouping, and counting of regulated device failure data.
- Developed, edited, and validated SOPs, procedures, protocols, and professional literature across multiple departments (regulatory, complaint handling, development, etc.)

Marketing Data Analyst, American Botanical Pharmacy

June 2014 – April 2016

- Oversaw and analyzed A/B tests for digital marketing campaigns, evaluating conversion performance and informing content optimization decisions.
- Gathered and designed workplan for collecting & analyzing historical campaign data to identify performance drivers and underperforming channels, directly informing content strategy and future campaign planning.

Data Analyst, The Academic Advantage Inc

August 2012 – June 2014

- Supported recruitment and onboarding operations serving hundreds of thousands of students statewide by producing cross-departmental analytical reports for leadership.
- Built databases for recruiting information of over 200,000 tutors and integrated into monthly operational and performance reports using advanced Excel functions, improving visibility into staffing, onboarding, and service delivery metrics.
